

# BEHAVIOURAL SAFETY EVENTS ACROSS SCOTLAND

SCOTLAND'S CONSTRUCTION TRADE BODIES & SPONSORS PRESENT

## "GRAVITY"

IN ASSOCIATION WITH AKT PRODUCTIONS

"Gravity" builds on the success of previous year's productions by AKT ("Terminal"). In total over 800 persons attended the previous productions in Scotland with 99% giving it a strong endorsement by recommending the AKT behavioural safety event to others.

*"the greatest proportion of fatal incidents in the construction industry results from falls from height"*

### "GRAVITY"

Join us on a journey which tells a story of the death of a sub-contractor as a result of a fall.

Get the story behind the headlines!

"GRAVITY" is an interactive workshop which uses theatre techniques to explore the consequences of accidents and the casual factors that contribute to them. On this workshop we are looking for some real answers...
